SURGICAL RETRACTOR

ONETRAC

ONETRAC is a single-use cordless surgical retractor with a built-in LED light source and smoke evacuation channel.
It provides illumination in the depths of a surgical tissue pocket or cavity. No additional parts or components or fibre optic cables are required. Ideal for breast or reconstructive procedures, as well as other surgical procedures requiring access, illumination and retraction of soft tissue. Reduce cost, increase efficiency and eliminate unnecessary risk of cross-contamination with ONETRAC.

WOUND DRAINAGE

Wound drains and evacuators provide drainage for various surgical procedures, allowing for the removal of blood and excess fluid to improve patient outcome. Our wound drainage systems are made up of evacuators, flat drains, fluted drains, round drains, capillary action drains and easy flow drains.

They are all made from 100% medical grade silicone, which is inert, soft and flexible and designed to reduce the potential of post – operative infections.

WOUND EVACUATOR BULB

Our wound evacuator is a clear bulb with easy to read graduations up to 100ml/cc, and is designed to slowly draw fluid and blood from the wound site. It creates an ideal vacuum to a maximum of 125mmHg pressure and is compatible with our flat drains, fluted drains and round drains.

31300380DS

31300380DS	Evacuator Bulb 100ml/cc	10

PERFORATED FLAT WOUND DRAIN

Soft and comfortable silicone flat drains with multiple drainage holes to enhance the fluid removal in a wound. They have an ergonomic flat shape which enables an easier placement. X-ray detectable.

11100200780DS

11100200780DS	7mm x 800mm with a 220mm Channel, White XRD Strip	10
11100100780DS	7mm x 800mm with a 220mm Channel, Blue XRD Strip	10
11100201080DS	10mm x 800mm with a 220mm Channel, White XRD Strip	10
11100101080DS	10mm x 800mm with a 220mm Channel, Blue XRD Strip	10

FLUTED FLAT WOUND DRAIN

Clear soft silicone drain with white x-ray detectable end.

11101400780DS	7mm x 1020m with 200mm Channel and Trocar	10
11101411080DS	10mm x 1020mm with 200mm Channel and Trocar	10

FLUTED ROUND WOUND DRAIN

Fluted drains are made of soft, flexible silicone with or without attached trocar. Designed with a multi channel to allow for great drainage and assisting in minimal tissue in-growth. The inner core of the H design offers drain strength and flexibility. X-ray detectable.

MEDICAL CONSUMABLES

ANAESTHETIC FACE MASK

Our anaesthetic face masks are ergonomically designed to optimise the application of anaesthetics. The masks have an inflating air cushion that is adjustable by an inflation value, for sealing and patient comfort.
The transparent face plate and cushion provides easy patient facial visibility. The masks are for single patient use and are provided non-sterile.
