Activon Manuka Honey®

At our state-of-the-art manufacturing facility in the UK, the Advancis range of medical grade Manuka Honey antimicrobial products, offer the unique combination of a high quality performance product at a competitive price.

- ✓ In-vitro clinical trials have demonstrated that low concentrations of Advancis Manuka honey prevented biofilm formation in MSSA, MRSA and VRE, whilst still maintaining its antimicrobial properties
- ✓ Effective debridement capabilities for faster wound bed preparation
- ✓ Deodorises wounds, positively impacting on a patient's quality of life
- ✓ Maintains a moist wound healing environment, facilitating faster healing of chronic wounds
- ✓ Extensive range of Advancis Manuka honey dressings, allowing the right dressing selection for each wound type
- ✓ Honey is non-cytotoxic and is a completely natural substance

Advancis Medical® bring the benefits of 100% Manuka honey into a versatile suite of wound healing that enable you to choose the right dressing for every phase of wound healing.

Activon Tulle®

Knitted viscose mesh impregnated with 100% Manuka honey

A knitted viscose mesh primary dressing impregnated with 100% Medical Grade Manuka honey. Activon Tulle® creates a moist healing environment and effectively eliminates wound odour whilst providing antibacterial action.

Activon Tulle® is ideally suited to debriding and de-sloughing shallow wounds or where the exudate levels have started to decrease.

- ✓ Activon Tulle® is a 2 in 1 sterile dressing; Manuka honey with a primary dressing
- ✓ Allows exudate to pass through the dressing on wounds with low to moderate levels of exudate
- ✓ Can be cut to size, increasing patient comfort and resulting in better peri-wound skin condition
- ✓ Can be placed on the wound either side up, eliminating incorrect dressing application

Activon Tube®

100% Medical Grade Manuka honey

Containing 100% Medical Grade Manuka honey with no additives. Our Manuka honey is filtered and sterilised, making it suitable for application to wounds.

Manuka honey will de-bridge and de-slough, eliminate odours and provides a moist wound healing environment. Activon Tube® is ideal for debriding necrotic tissue, or for applying additional honey to a dressing where further bacterial resistance is needed. Great for using in cavities, just wash away with saline solution.

- ✓ Contains 100% pure Manuka honey with no additives
- ✓ Deodorises wounds, positively impacting on a patient's quality of life
- ✓ Maintains a moist wound healing environment, facilitating faster healing of chronic wounds
- ✓ Does not absorb into the blood stream, meaning it can be safely used on diabetic patients
- ✓ For best results, use in conjunction with a secondary dressing, in particular the Eclypse® super absorbent

The Activon® range contains all the well-known benefits of manuka honey as a broad spectrum antibacterial product, effective against most wound invading bacterial that are well known in today's healthcare environment. These include *Staphylococcus aureus*, *Pseudomonas aeruginosa*, VRE and possibly the best known, MRSA - challenging the need for routine antibiotics to treat wound infection.

Activon® is a natural alternative to the more common wound therapies such as silver, with none of the perceived challenges that silver products face today, such as their cost-effectiveness, lack of efficacy and concerns around their safety and resistance¹.

Name	Size	Dressings per Box	Stock Code
Activon Tube®	25g	12	CR3830
Activon Tulle®	5cm x 5cm	5	CR3761
Activon Tulle®	10cm x 10cm	5	CR3658

Your patient outcomes can be improved when our Activon Manuka Honey® dressings are used in conjunction with our Eclypse® range of super-absorbers.
