

Defries Industries is committed to minimising the environmental impact of our activities, products and services, by incorporating ecologically-sustainable practices into our management system and decision-making processes to ensure our operations and resource efficiency improve over time.

We achieve this by:

- Complying with relevant legislation, policy and standards to continually improve our environmental performance.
- Maintaining a certified Environmental Management System to the ISO14001 standard
- Reducing resource consumption
- Supporting and implementing waste reduction, reuse and recycling
- Considering environmental impact in the procurement of products and services
- Communicating our environmental policy to all employees, suppliers, contractors and other interested parties
- Regularly assess and audit our environmental performance and the effectiveness of our environmental management systems.

Defries Industries will respond to environmental challenges, and contribute to the foundation of an environmentally sustainable future.
