

The clear choice for
personal protection

SPEYES™ EYE SHIELDZ™

Shield your eyes from
blood, bodily fluids or
other risky splashes
with quality eye
protection.

The DeRoyal SPEyes™ Eye Shieldz™ range are designed to fit snugly for complete splash protection while UltraClear™ technology prevents glare, fog and static. Clip on and off designs enable quick change and minimise handling and contamination risk.

Give your healthcare providers a clear
view to focus on what they do best.

FEATURES OF THE SPEYES™ EYE SHIELDZ™ RANGE

- Anti-Fog Coating on Both Sides**
 Contains Ultra-Clear™ anti-fog technology on both sides of the lenses. This prevents lenses from fogging up during use and provides clear vision during procedures.
- Non-Perforated**
 Compliant with health and safety regulations regarding exposure to bloodborne pathogens. Promotes user safety and protection.
- Top-Down Fluid Protection**
 Offers a protective ridge for added protection from elements coming from the top down.
- Vibrant Colored Frames**
 The color strip serves as a handling guide for assembly, keeping the lens fingerprint-free.
- Wrap-Around Frame**
 Frame wraps around the head for a more secure fit. The product will not slide off the head of the user and is comfortable and accommodating when worn with prescription glasses.
- Clip-On/Clip-Off Lens Design**
 Makes changing the lenses intuitive, quick, and simple, without excessive handling of the lenses.
- Curved Ear Pieces on Frames**
 Provides additional comfort by preventing the frames from digging into the head behind the ear.
- Dispenser Boxes**
 Specially designed, convenient dispenser box system makes lenses and frames easily accessible and disposable.
